APPROVAL OF STATE ENGINEER	
This is to certify I have examined the foregoing application, and do hereby grant the same, subject to the follo limitations and conditions: This permit to change the point of diversion of a portion of the waters of underground source as heretofore granted under Permit 51444 is issued subject to terms and conditions imposed in said Permit 51444 and with the understanding that other rights on the source will be affected by the change proposed herein. The shall be equipped with a 2-inch opening and a totalizing meter must be installed maintained in the discharge pipeline near the point of diversion and accume assurements must be kept of water placed to beneficial use. The totalizing must be installed before any use of the water begins or before the proof completion of work is filed. If the well is flowing, a valve must be installed maintained to prevent waste. This source is located within an area designated by State Engineer pursuant to NRS 534.030. The State retains the right to regulate use of the water herein granted at any and all times. The issuance of this permit will allow the permittee to dewater the pit a maximum use of water for mining, milling and related purposes from all dewate wells shall be made. All of the water from the dewatering wells not used mining, milling and related purposes shall be returned to the groundwater source the manner authorized under Division of Environmental Protection's Water Pollu Control Permit issued June 7, 1989. The total combined duty of water under Permits 49249, 51711, 51712, 52 52529, 52530, 52531, 52532, 52533, and 52534 shall not exceed 2500 acre annually. (CONTINUED ON PAGE 2) The amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not amount of water to be changed shall be limited to the amount which can be applied to beneficial use, and not amount of water to be changed shall be limited to the amo	f an the t no well and rate eter f of and the trea. ring for e in tion 528, feet
exceed 0.5 cubic feet per second, but not to exceed 361.95 ac	re-
feet annually.	
Work must be prosecuted with reasonable diligence and be completed on or before	989
Proof of completion of work shall be filed before October 26, 1	989
Application of water to beneficial use shall be made on or before September 26, 1	989
Proof of the application of water to beneficial use shall be filed on or before	989
Map in support of proof of beneficial use shall be filed on or before	
Completion of work filed IN TESTIMONY WHEREOF, I PETER G. MORROS State Engineer of Nevada, have hereunto set my hand and the seal of	
Proof of beneficial use filed	·

(PERMIT TERMS CONTINUED)

Monthly reports shall be submitted to the State Engineer as to how much water is pumped from each well; the amount used for mining, milling and related purposes; and the amount of water placed in the percolation system and the estimated amount of water recharged to the groundwater system.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

This permit is issued under the preferred use provisions of NRS Chapter 534. The manner of use of water under this permit is by nature of its activity a temporary use and any application to change the manner of use granted under this permit will be subject to additional determination and evaluation with respect to the permanent effects on existing rights and the resource within the ground water basin.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.
